

Who else is doing something similar — and where VetPath fits

The market is crowded on **finding benefits** and **paid claims help**, but thin on a **free, personalized, whole-life gameplan**. That's the wedge.

	What it is	Cost to veteran	Personalized 30/60/90 plan?	Primary focus	VetPath's relationship & difference
VetPath (this concept)	Free, personalized life gameplan with prioritized 30/60/90 steps across all domains + in-person facilitation	Free	✓ core	Whole-life planning + navigation	— This is us. Wedge: free + personalized + all life stages + facilitation, always pointing to official/accredited help.
AI Ready Veteran	AI-built personalized transition roadmap organized by topic	~\$195/yr (some subsidized)	✓ yes	Transition (AI-guided)	Closest competitor. Differentiate on free-to-veteran, all life stages, and human facilitation vs. AI-only.
MyVetBENEFITS	Free app/site matching veterans to benefits they may qualify for (~2,400)	Free	🕒 partial	Benefit eligibility matching	Complement. It matches benefits; VetPath adds the prioritized plan and next steps on top.
Battle Buddy (VETLIFE)	Free 2025 app to navigate disability, home loan, mental health, employment	Free	🕒 partial	Benefits navigation	Overlaps on navigation. Differentiate on the personalized, staged gameplan.
PATRIOTlink (Code of Support)	Free, vetted searchable database of cost-free veteran services	Free	✗ no	Resource directory	Partner. Plug in as a resource layer; VetPath is the planning layer above it.
Combined Arms	SaaS platform connecting veterans to resources (strong in Texas)	Free to veteran	✗ no	Resource connection / referral	Partner (esp. Texas). Referral engine; VetPath adds the prioritized personal plan.
Government: VA.gov · TAP · Military OneSource	Official benefits info, transition program, and consultations	Free	🕒 generic	Authoritative source of truth	Source we point to. Fills their gap: authoritative but overwhelming and not personalized/prioritized.
VSOs (VFW, American Legion, DAV, county officers)	Free accredited human help with benefits and claims	Free	🕒 person-led	Claims & benefits help (human)	Partner / handoff. VetPath routes veterans to them; never replaces accredited help.
Career orgs (Hire Heroes USA, Onward to Opportunity, ACP)	Free job placement, training, and mentoring programs	Free	🕒 career only	Employment / career	Complement one slice. VetPath links to them within the broader plan.
Paid claims consultants (VA Claims Insider, Trajector, Veterans Guardian)	Paid assistance with VA disability claims	Charges fees (\$\$)	✗ no	Disability claims (for pay)	Distance from these. Charging for claims help is legally/ethically fraught. VetPath never charges for claims — a compliance boundary.

Personalized plan key: ✓ yes · 🕒 partial / generic · ✗ no | Most tools are a benefit **matcher** , a resource **directory** , or **paid claims help**

— few deliver a free, prioritized, whole-life plan.

VetPath's wedge: the only free tool that turns a veteran's goals + life stage into a prioritized 30/60/90 gameplan across all domains, with in-person facilitation at meetings/VSOs — and a hard rule to verify with official sources and never charge for claims. **Smart strategy:** partner with directories (Combined Arms, PATRIOTlink) and VSOs rather than compete; be the planning layer on top.

Compiled from public sources as of July 2026; details change — verify each program directly. VetPath is a planning & education tool — not the VA, a law firm, or an accredited claims representative. Naming a company here is not an endorsement or a factual claim about its practices; do your own due diligence.
